

All Processes under Control

SBI GmbH

Gewerbering 15 / 3710 Ziersdorf / Austria
Tel. +43 29 52 341 39 / Email: office@sbi.at / web: www.sbi.at

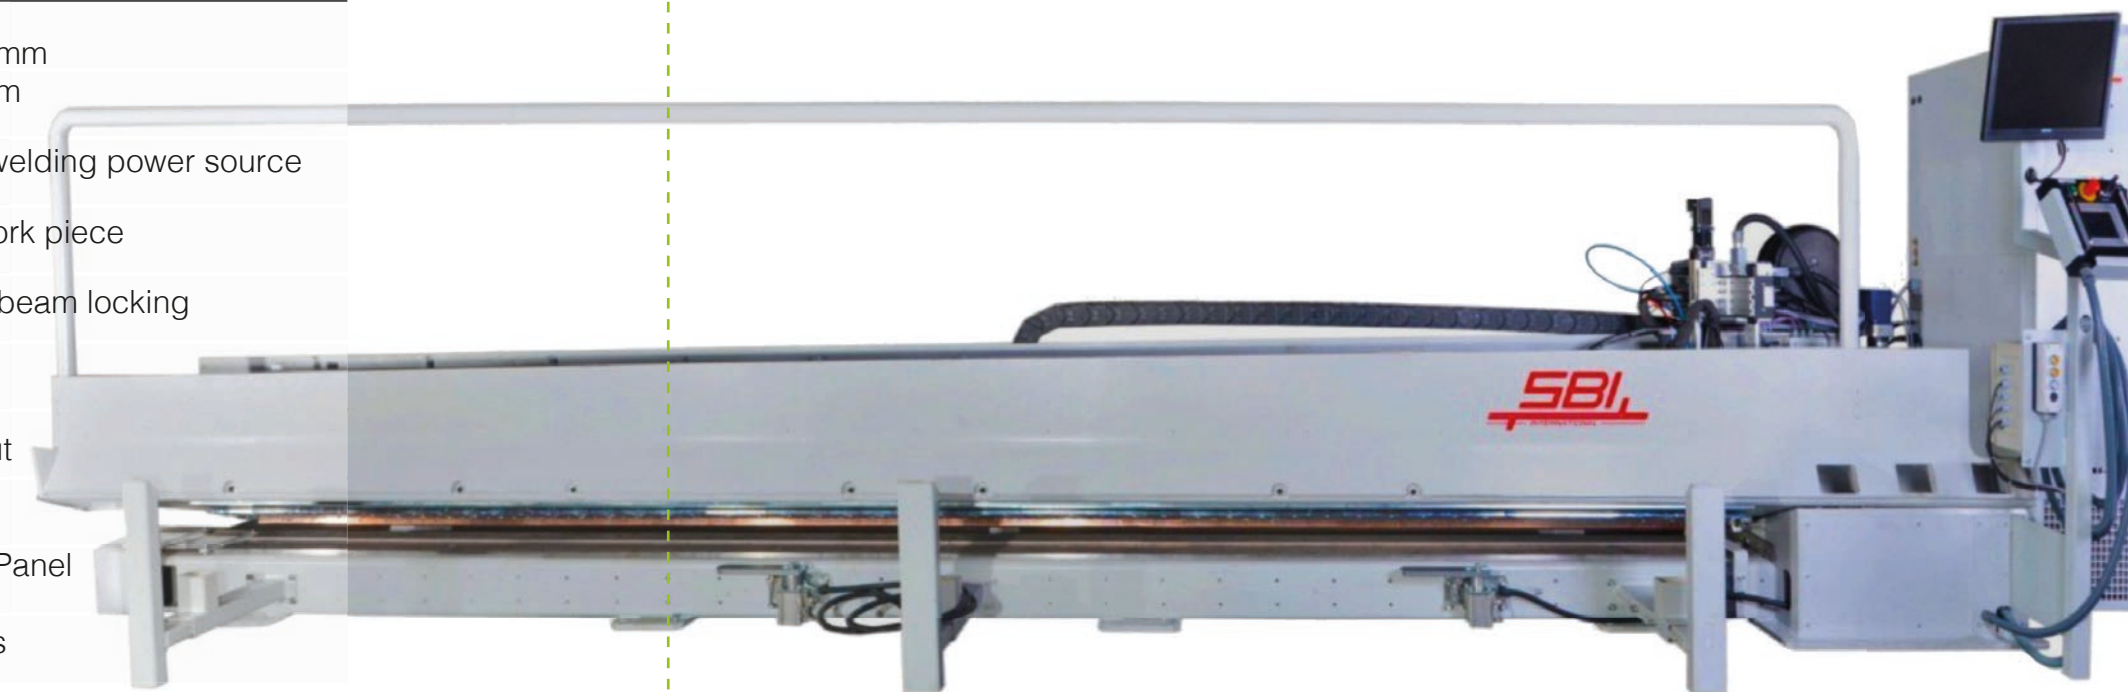

BECAUSE SIZE MATTERS

seam welding from 0,5 - 8 meters

SBI SeamWelding Devices

SWD500	Material thickness: 0,5 – 10 mm
SWD1000 / 1000SE	Min. internal diameter: 80 mm
SWD1300	Fully integrated or external welding power source
SWD1500 / 1500SE	Precise adjustment of the work piece
SWD2000	Manual or pneumatic cross-beam locking
SWD2500	Cross axis options
SWD3000	Coolable copper bar with nut and purging gas bores
SWD4000	Integrated or Mobile Touch Panel
SWD6000	
SWD8000	Numerous additional options

Welding System

integrated PLASMA power source,
various torches, cold wire, tow gas,
collision protection, camera systems,
seam tracking,...

Beam Locking

manual or automated system
easy-loading options

Clamping System

industry-approved clamping technology
for a wide range of materials and sheet
thicknesses
exchangeable and cooled copper jaws,
adjustable clamping force

DO IT PLASMA!
